

OCTOBER IS **Breast Cancer Awareness Month**

Virtual Lunch & Learn **Thursday, October 8 • 12 – 12:30 p.m.**

Join us for an engaging discussion about breast cancer awareness. Breast cancer is the most common cancer diagnosed among women in the United States.

Mammograms can help detect cancer early, before symptoms appear, which can help make treatment easier and more successful.

A question-and-answer session will follow the presentation.

Presented by

Cherie Heard, MBAHA, BSRs, CT, RT

*Sr. Director of Procedural & Support Services
Methodist South Hospital*
